Hi Bob,

My name is Ryan Seaverson and I am a regulatory specialist with SafetyCall International. You may recall we exchanged voicemails about a month ago regarding a Control Solutions aggregate report. I wanted to send you a note to reintroduce myself and ask a quick question...

It was just brought to my attention there was a miscommunication between two of our clients (Sergeants and Control Solutions) related to the exchange of incident reports for products they sub-register from each other. Unfortunately, as a result SafetyCall will not have the needed time to process these cases for inclusion in their 4<sup>th</sup> quarter conditional registration reports due 2/28/15. Would you recommended we add any type of addendum to the report referencing the late submission or would you like anything submitted by 2/28 as a place holder until the final report is prepared?

Thank you in advance for your help!

Regards,

**Ryan Seaverson, MBS, RAC**

*Regulatory Specialist*
